REQUEST FOR PROPOSALS (RFP) FOR LANDSCAPING SERVICES

BACKGROUND:

The King County Housing Authority (KCHA), under contract, oversees Sedro-Woolley Housing Authority's daily operations. This includes property management, maintenance, and accounting services. Established in 1969, the Sedro-Woolley Housing Authority (SWHA) provides high-quality, affordable housing to some of the community's most vulnerable residents. SWHA manages 80 units of subsidized housing, ensuring that more than 150 people have a place to call home. These people include economically disadvantaged families, seniors, and persons with disabilities. Primarily financed by the U.S. Department of Housing and Urban Development (HUD), the Housing Authority manages, maintains and modernizes these housing units. Professional services are required from time to time to provide specialized experience and technical competence to handle some non-routine projects.

All information submitted to SWHA will become public records, as per RCW 42.56. If you are submitting information, which you think is confidential and/or proprietary to your business; SWHA recommends that you do not submit that information, as SWHA cannot guarantee that type of information will be withheld from a public disclosure request.

The Sedro Woolley Housing Authority is an Equal Employment Opportunity Employer and strongly encourages minority-owned and women-owned businesses, socially and economically disadvantaged businesses, and small businesses to submit bids or to participate as subcontractors and suppliers on SWHA contracts.

Such landscape services are to be provided on specific and selected services during the term of the contract. The intent of this contract is for services to be provided in a timely manner for projects and to assist SWHA in maximizing its efficiencies in landscape services.

The selected contractor(s) shall furnish all expertise, labor and resources (including all Safety Data Sheets for chemicals used) in accordance with the requirements of SWHA and shall provide complete services necessary during the contract. SWHA may or may not utilize these services or a portion of the services during the term of the contract. SWHA is under no obligation to fully expend the contract amount with the selected firm. SWHA reserves the right to select more than one contractor at its own discretion.

SWHA shall pay on invoices within 30 days of receipt from the Contractor. Certified payrolls for Davis-Bacon funded tasks will be required to be submitted with the invoice for services performed.

CONTRACT TERM:

1. We anticipate the initial term of the contract shall be three (3) years. SWHA, at its sole discretion and option, may renew the contract incrementally or in whole for up to two (2) additional years. Under this Contract, Task Orders may be issued during the term of the Contract. SWHA is under no obligation to issue Task Orders or to expend any money during the term of the Contract. It is further understood that task orders issued under this contract may not be completed during the contract term and in such case all terms, clauses, rights, and obligations of the Contract shall remain in force, and shall survive until the work is completed.
 - a. Any individual Task Order shall not exceed \$50,000. If a task order proposal exceeds \$50,000 then SWHA will either bid that work separately or revise the task order by reducing scope of work.
 - b. With the exception of emergency work, a Purchase Order number must be acquired by the contractor from SWHA prior to scheduling or performing any service above and beyond the monthly service under this contract. SWHA has sole discretion for determining whether work qualifies as an emergency.

LABOR AND MATERIAL RATES:

1. HUD has determined that, for non-construction maintenance work (work not covered by Davis-Bacon requirements), OWNER must ensure that contractors do not pay its employees that perform such work for the OWNER at a rate less than the rates listed on the HUD Maintenance Wage Rate Determination. Therefore, by submitting a bid, each proposer is thereby agreeing to and verifying that they will not pay their employees at rates less than those listed in Attachment E. It is the contractor's responsibility to review the wage rates and request additional classifications from the OWNER as needed for specific work.
2. HUD issues revised Maintenance wage rates on a biennial basis. Wages to employees must be adjusted to meet the minimum required wages prior to renewal or extension of any contract.

3. HUD has determined that a Record of Employee Interview (Wage Interview) must be completed by a “representative sample” of workers for each contract. Over the course of the year, KCHA or SWHA staff may interview your employees while on our job site and ask them questions regarding their names, job duties, and pay. It is a federal requirement that these interviews are completed, and it is also a requirement of any contract issued under this RFP.
4. If the contractor is required to pay Davis-Bacon wage rates (for all “construction in excess of \$2,000”), KCHA will then issue a General Decision as it applies to that work. Current Davis-Bacon wage rates may be viewed via the following steps:
 - a. Enter [SAM.gov | Search](https://www.sam.gov) and follow the directions to determine the proper wage rate.
 - b. Weekly certified payrolls are required for all work performed under Davis-Bacon rules.
5. All wage rules and requirements must be cascaded down to all subcontractors through contractually binding agreements.
6. The contractor’s proposal must clearly indicate the mark-up percentage of any materials over wholesale cost. Material rates must be itemized on invoices submitted at job completion.

BONDS:

Bid, payment and performance bonds will not be required for RFP submission or any resulting contract.

SELECTION PROCESS:

KCHA will check and evaluate all submittals for responsiveness to this RFP. A committee of KCHA personnel will rate contractors based on Pricing, Completeness of Proposal Response, and Qualifications. Based on this initial scoring, one or more bidders may be asked to participate in a panel interview in which the Technical Qualifications and Management Qualifications scoring will be finalized. The rating system will be in accordance with the Evaluation Criteria listed below.

1. KCHA, as representative of SWHA will then enter into negotiations with the selected highest scoring candidate(s) to finalize contract terms and associated costs of the services to be performed. If mutually agreeable terms cannot be met, KCHA may terminate negotiations and begin negotiations with the next highest scored candidate. This process may be repeated as necessary.
2. In addition to requirements listed in forms HUD-5369B, and HUD-5370c Sections I & II as applicable (see attached), a responsible/qualified company must meet the following standards:
 - a) Have a minimum of five years of documented experience in the **LANDSCAPING** trade.
 - b) Have the technical and financial resources to perform and complete the projects successfully in compliance with the attached specifications, terms and General Conditions of the contract.
 - c) Have a good record of past performance which includes, but is not limited to, quality of work, ability to complete projects on time, Contractor’s integrity, compliance with public policy, financial, contractual and tax obligations, and Federal and State rules and regulations in performing contracts. Please complete the attached “bidder’s information/contractor certification” form.

If a proposal is determined to be “non-responsive”, KCHA will issue, in writing, the specific reasons for this determination. A company whose bid is determined non-responsive will be allowed to appeal the decision. The appeal must be in writing and must be delivered to KCHA at the address provided in the determination notice of

“non-responsive” within 2 business days after KCHA makes the decision. The appeal may include additional information that was not included in the original proposal documents. KCHA will make a final determination after the receipt of the appeal. The final determination may not be appealed.

SWHA also reserves the right to obtain clarification of any point in a contractor’s proposal or to obtain additional information necessary to properly evaluate a particular proposal. Failure of a contractor to respond to such a request for additional information or clarification could result in rejection of the contractor’s proposal.

The [contractor/seller] will take such action with respect to any subcontract or purchase order as may be directed by the Secretary of Labor as a means of enforcing such provisions including sanctions for noncompliance: Provided, however, that in the event the [contractor/seller] becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction, the [contractor/seller] may request the United States to enter into such litigation to protect the interests of the United States.

17. Equal Opportunity for Workers with Disabilities

1. The [contractor/seller] will not discriminate against any employee or applicant for employment because of physical or mental disability in regard to any position for which the employee or applicant for employment is qualified. The [contractor/seller] agrees to take affirmative action to employ and advance in employment individuals with disabilities, and to treat qualified individuals without discrimination on the basis of their physical or mental disability in all employment practices, including the following:

The contractor will take such action with respect to any subcontract or purchase order as the Director, Office of Federal Contract Compliance Programs may direct to enforce such provisions, including action for noncompliance.

7. The [contractor/seller] must, in all solicitations or advertisements for employees placed by or on behalf of the [contractor/seller], state that all qualified applicants will receive consideration for employment and will not be discriminated against on the basis of disability.

Note: Contracts subject to the Davis-Bacon Act are generally required to pay at least the applicable minimum wage rate required under Executive Order 14026 or Executive Order 13658. Please note that these Executive Orders apply to covered contracts entered into by the federal government that are subject to the Davis-Bacon Act itself, but do not apply to contracts subject only to the Davis-Bacon Related Acts, including those set forth at 29 CFR 5.1(a)(1).

If the contract is entered into on or after January 30, 2022, or the contract is renewed or extended (e.g., an option is exercised) on or after January 30, 2022:	◆ Executive Order 14026 generally applies to the contract. ◆ The contractor must pay all covered workers at least \$17.75 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract in 2025.
If the contract was awarded on or between January 1, 2015 and January 29, 2022, and the contract is not renewed or extended on or after January 30, 2022:	◆ Executive Order 13658 generally applies to the contract. ◆ The contractor must pay all covered workers at least \$13.30 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours performing on that contract in 2025.

The applicable Executive Order minimum wage rate will be adjusted annually. If this contract is covered by one of the Executive Orders and a classification considered necessary for performance of work on the contract does not appear on this wage determination, the contractor must still submit a conformance request.

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at <https://www.dol.gov/agencies/whd/government-contracts>.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (iii)).

The body of each wage determination lists the classifications and wage rates that have been found to be prevailing for the type(s) of construction and geographic area covered by the wage determination. The classifications are listed in alphabetical order under rate identifiers indicating whether the particular rate is a union rate (current union negotiated rate), a survey rate, a weighted union average rate, a state adopted rate, or a supplemental classification rate.

Union Rate Identifiers

A four-letter identifier beginning with characters other than ""SU"", ""UAVG"", ?SA?, or ?SC? denotes that a union rate was prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2024. PLUM is an identifier of the union whose collectively bargained rate prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. The date, 07/01/2024 in the example, is the effective date of the most current negotiated rate.

Union prevailing wage rates are updated to reflect all changes over time that are reported to WHD in the rates in the collective bargaining agreement (CBA) governing the classification.

Union Average Rate Identifiers

The UAVG identifier indicates that no single rate prevailed for those classifications, but that 100% of the data reported for the classifications reflected union rates. EXAMPLE: UAVG-OH-0010 01/01/2024. UAVG indicates that the rate is a weighted union average rate. OH indicates the State of Ohio. The next number, 0010 in the example, is an internal number used in producing the wage determination. The date, 01/01/2024 in the example, indicates the date the wage determination was updated to reflect the most current union average rate.

A UAVG rate will be updated once a year, usually in January, to reflect a weighted average of the current rates in the collective bargaining agreements on which the rate is based.

Survey Rate Identifiers

The ""SU"" identifier indicates that either a single non-union rate prevailed (as defined in 29 CFR 1.2) for this classification in the survey or that the rate was derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As a weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SUFL2022-007 6/27/2024. SU indicates the rate is a single non-union prevailing rate or a weighted average of survey data for that classification. FL indicates the State of Florida. 2022 is the year of the survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. The date, 6/27/2024 in the example, indicates the survey completion date for the classifications and rates under that identifier.

?SU? wage rates typically remain in effect until a new survey is conducted. However, the Wage and Hour Division (WHD) has the discretion to update such rates under 29 CFR 1.6(c)(1).

State Adopted Rate Identifiers

The ""SA"" identifier indicates that the classifications and prevailing wage rates set by a state (or local) government were adopted under 29 C.F.R 1.3(g)-(h). Example: SAME2023-007 01/03/2024. SA reflects that the rates are state adopted. ME

refers to the State of Maine. 2023 is the year during which the state completed the survey on which the listed classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. The date, 01/03/2024 in the example, reflects the date on which the classifications and rates under the ?SA? identifier took effect under state law in the state from which the rates were adopted.

WAGE DETERMINATION APPEALS PROCESS

1) Has there been an initial decision in the matter? This can be:

- a) a survey underlying a wage determination
- b) an existing published wage determination
- c) an initial WHD letter setting forth a position on a wage determination matter
- d) an initial conformance (additional classification and rate) determination

On survey related matters, initial contact, including requests for summaries of surveys, should be directed to the WHD Branch of Wage Surveys. Requests can be submitted via email to davisbaconinfo@dol.gov or by mail to:

Branch of Wage Surveys
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

Regarding any other wage determination matter such as conformance decisions, requests for initial decisions should be directed to the WHD Branch of Construction Wage Determinations. Requests can be submitted via email to BCWD-Office@dol.gov or by mail to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2) If an initial decision has been issued, then any interested party (those affected by the action) that disagrees with the decision can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Requests for review and reconsideration can be submitted via email to dba.reconsideration@dol.gov or by mail to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative

Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210.

Note: Contracts subject to the Davis-Bacon Act are generally required to pay at least the applicable minimum wage rate required under Executive Order 14026 or Executive Order 13658. Please note that these Executive Orders apply to covered contracts entered into by the federal government that are subject to the Davis-Bacon Act itself, but do not apply to contracts subject only to the Davis-Bacon Related Acts, including those set forth at 29 CFR 5.1(a)(1).

The contractor must pay all covered workers at least \$17.75 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract in 2025.
If the contract was awarded on or between January 1, 2015 and January 29, 2022, and the contract is not renewed or extended on or after January 30, 2022:	. The contractor must pay all covered workers at least \$13.30 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on that contract in 2025.

The applicable Executive Order minimum wage rate will be adjusted annually. If this contract is covered by one of the Executive Orders and a classification considered necessary for performance of work on the contract does not appear on this wage determination, the contractor must still submit a conformance request.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (iii)).

The body of each wage determination lists the classifications and wage rates that have been found to be prevailing for the type(s) of construction and geographic area covered by the wage determination. The classifications are listed in alphabetical order under rate identifiers indicating whether the particular rate is a union rate (current union negotiated rate), a survey rate, a weighted union average rate, a state adopted rate, or a supplemental classification rate.

Union Rate Identifiers

A four-letter identifier beginning with characters other than ""SU"", ""UAVG"", ?SA?, or ?SC? denotes that a union rate was prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2024. PLUM is an identifier of the union whose collectively bargained rate prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. The date, 07/01/2024 in the example, is the effective date of the most current negotiated rate.

Union prevailing wage rates are updated to reflect all changes over time that are reported to WHD in the rates in the collective bargaining agreement (CBA) governing the

classification.

Union Average Rate Identifiers

The UAVG identifier indicates that no single rate prevailed for those classifications, but that 100% of the data reported for the classifications reflected union rates. EXAMPLE:

UAVG-OH-0010 01/01/2024. UAVG indicates that the rate is a weighted union average rate. OH indicates the State of Ohio. The next number, 0010 in the example, is an internal number used in producing the wage determination. The date, 01/01/2024 in the example, indicates the date the wage determination was updated to reflect the most current union average rate.

A UAVG rate will be updated once a year, usually in January, to reflect a weighted average of the current rates in the collective bargaining agreements on which the rate is based.

Survey Rate Identifiers

The ""SU"" identifier indicates that either a single non-union rate prevailed (as defined in 29 CFR 1.2) for this classification in the survey or that the rate was derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As a weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SUFL2022-007 6/27/2024. SU indicates the rate is a single non-union prevailing rate or a weighted average of survey data for that classification. FL indicates the State of Florida. 2022 is the year of the survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. The date, 6/27/2024 in the example, indicates the survey completion date for the classifications and rates under that identifier.

?SU? wage rates typically remain in effect until a new survey is conducted. However, the Wage and Hour Division (WHD) has the discretion to update such rates under 29 CFR 1.6(c)(1).

State Adopted Rate Identifiers

The ""SA"" identifier indicates that the classifications and prevailing wage rates set by a state (or local) government were adopted under 29 C.F.R 1.3(g)-(h). Example: SAME2023-007 01/03/2024. SA reflects that the rates are state adopted. ME refers to the State of Maine. 2023 is the year during which the state completed the survey on which the listed classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. The date, 01/03/2024 in the example, reflects the date on which the classifications and rates under the ?SA? identifier took effect under state law in the state from which the rates were adopted.

SECTION 3 – SUPPLEMENTAL INSTRUCTIONS TO BIDDERS

LOCAL RESIDENT HIRING AND CONTRACTING (SECTION 3) REQUIREMENTS:

The Owner's or King County Housing Authority's (KCHA) goal for this project is to participate in Section 3 activities by including efforts that will provide employment opportunities to Section 3 workers and contracting opportunities to Section 3 businesses. (Section 3 workers and Section 3 Businesses are defined below and in 24 CFR 75.)

The Contractor and its Subcontractors at all tiers for this specific contract will partner with the Owner to contribute to the Owner's overall "Section 3" goals, as described below.

Because local hiring and contracting requirements are defined under Section 3 of the Housing and Community Development Act of 1968, these requirements are commonly referred to as Section 3. The definitions and goals are defined in Sections A and B below. Section C describes the process. Section D discusses consequences of non-compliance with Section 3 goals and Section E describes some local hiring resources. For more information on the Owner's employment and training efforts, or compliance with Section 3, please email KCHA at section3@kcha.org.

A. Section 3 Definitions

For the purposes of this solicitation:

1. "Section 3 worker" means any worker who currently fits or when hired within the past five years fit at least one of the following categories, as documented:
 - a. The worker's income for the previous or annualized calendar year is below the income limit established by HUD. (See Pg. 4 of this section for HUD income limits)
 - b. The worker is employed by a Section 3 business concern.
 - c. The worker is a YouthBuild participant.
2. "Targeted Section 3 worker" means a Section 3 worker who is:
 - a. A worker employed by a Section 3 business concern; or
 - b. A worker who currently fits or when hired fit at least one of the following categories, as documented within the past five years:
 - i. A resident of public housing or Section 8–assisted housing;
 - ii. A resident of other public housing projects or Section 8–assisted housing managed by the PHA that is providing the assistance; or
 - iii. A YouthBuild participant.
3. "Business concern" means a business entity formed in accordance with State law, and which is licensed under State, county, or municipal law to engage in the type of business activity for which it was formed.

4. "Section 3 business concern" means a business concern meeting at least one of the following criteria, documented within the last six-month period:
 - a. It is at least 51 percent owned and controlled by low- or very low-income persons;
 - b. Over 75 percent of the labor hours performed for the business over the prior three-month period are performed by Section 3 workers; or
 - c. It is a business at least 51 percent owned and controlled by current public housing residents or residents who currently live in Section 8–assisted housing.
5. The greatest extent feasible means:
 - a. Completing and submitting a Section 3 Work Plan to designated Owner staff prior to contract signing (template to be provided by the Owner).
 - b. If contracting with Section 3 business concerns:
 - i. Placing qualified business enterprises on solicitation lists.
 - ii. Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation of qualified Section 3 businesses.
 - iii. Using the services and assistance of the U.S. Small Business Administration, the Minority Business Development Agency of the U.S. Department of Commerce and State and local governmental small business agencies to identify potential Section 3 businesses.
 - iv. Ensuring that small and minority businesses and women's business enterprises are solicited whenever they are potential sources.
 - c. If hiring Section 3 workers:
 - i. Post job opportunities for a mutually agreed upon length of time through the Owner's employment agency service partners and at project site as appropriate.
 - ii. Conduct interviews with qualified Section 3 workers.
 - iii. Notify designated Owner (KCHA) staff of all new hires.
 - d. For both: Complete Section 3 compliance and tracking paperwork as necessary.

B. Section 3 Goals

The Owner will require, to the greatest extent feasible, for the Contractor to demonstrate participation in the local hiring and contracting requirements as defined under Section 3 of the Housing and Community Development Act of 1968.

1. Bidders shall demonstrate compliance with the Section 3 goals by making a best faith effort to achieve the following benchmarks:
 - a. Twenty-five (25) percent or more of the total number of labor hours worked by all workers are Section 3 workers; and
 - b. Five (5) percent or more of the total number of labor hours worked by all workers are Targeted Section 3 workers.
2. The successful bidder and covered subcontractors shall direct their efforts to provide Section 3 employment opportunities to Section 3 workers in the following order of priority:
 - a. First Priority: Current residents of KCHA development(s) benefitting from project.
 - b. Second Priority: Other Owner public housing and Section 8 voucher- assisted residents.
 - c. Third Priority: Participants in HUD YouthBuild programs.

- d. Fourth Priority: Other low- or very low- income individuals in the Housing Authorities metropolitan area (Puget Sound region) who are at or below the Area's Low-Income calculation.
3. The Contractor and covered subcontractors shall direct their efforts to award contracts to Section 3 business concerns in the following order of priority:
 - a. First Priority: To Section 3 business concern that provides economic opportunities for KCHA residents at the site(s) where the work will take place.
 - b. Second Priority: To Section 3 business concerns that provide economic opportunities for residents of other KCHA developments or Section-8 assisted housing managed by KCHA.
 - c. Third Priority: A subcontractor that is a HUD YouthBuild company.
 - d. Fourth Priority: To Section 3 business concerns that provide economic opportunities to Section 3 workers residing within the metropolitan area (Puget Sound).|

4. Sealed Bidding

In order for KCHA to meet or exceed its adopted goal that 3% of all non-construction contracts and 10% of construction contracts paid in whole or in part with HUD funds be awarded to Section 3 businesses, KCHA may elect, on a contract-by-contract basis, to award a competitively bid contract to a responsible bidder other than the lowest responsive bidder by using the following procedure:

Bids shall be solicited from both Section 3 and non-Section 3 business concerns. KCHA may award the contract to the qualified Section 3 business concern with the highest priority ranking and with the lowest responsive bid if:

- a. the specific project or KCHA as an agency is otherwise not expected to meet Section 3 utilization goals; and,
- b. the bid is within the maximum total contract price established in KCHA's budget for the specific project for which bids are being taken; and,
- c. the sources of funds for the project are such that there are no conflicts between this procedure and applicable state law; and,
- d. the bid is not more than five percent (5%) higher than the total bid price for the lowest responsive bid from any responsible, bidder.

If no responsive bid by a Section 3 business concern meets the requirements above, the contract shall be awarded to a responsible bidder with the lowest responsive bid.

C. The Process

1. Contract is awarded to lowest responsible Bidder.
2. Section 3 orientation with Owner. Once the Notice of Intent to Award has been issued to the successful Bidder, Owner's staff will contact that Bidder and arrange for a meeting to discuss local hiring and contracting goals and strategies in greater detail. At this meeting, the Contractor will be provided a packet that will include a Section 3 overview, Section 3 certification form, and all Section 3 compliance and tracking forms that will be used throughout the contract.
3. Contractor reports on Section 3 activities monthly.

FOR CONTRACTS EXCEEDING \$500K ONLY:

4. Contractor submits Section 3 Work Plan, including hiring and subcontracting activities, prior to contract execution. Owner reviews and approves work plan prior to contract execution. Section 3 Work Plan shall be included in contract. Owner issues Notice to Proceed, providing all requirements are met.
5. Section 3 Work Plan implemented throughout the duration of contract.

D. Penalties for Non-compliance

Owner's commitment to this program is reflected in part by the cost of administering the program. Failure to make a good faith effort to the greatest extent feasible negates such funding and impairs the Owner's efforts to promote workforce diversity and to provide fair and equal opportunities to the public as a whole as a result of the expenditure of public funds. Therefore, if awarded this contract, the parties will mutually agree that failure to meet the requirements, including but not limited to the submission of required documentation, constitutes a material breach of contract. In the event of such breach, Owner may take any or all of the actions as contained in the Contract Documents.

E. Local Hiring Resources:

Contact KCHA by email at section3@kcha.org to obtain a list of local hiring resources.

Clarifications, Schedule and Maps

- ❖ Properties managed by the King County and Sedro-Woolley Housing Authorities are subject to HUD's "National Standards for the Physical Inspection of Real Estate" or NSPIRE inspections. These inspections are conducted every one to three years. These inspections greatly influence our funding levels and they assess how we are performing. As such; there are site minimums that we feel you should be aware of as we will rely heavily on you to either communicate with us about them or be sure these items are always within guidelines. They are as follows:
 - There shall be no erosion or rutting areas
 - No overgrown or penetrating vegetation (i.e. in fences, along buildings, taller than windows.
 - Ponding must not affect over 100 sq. ft.
 - Obstructed storm drainage
 - Garbage and debris
 - Infestations
 - Trip hazards (i.e. walkways, steps, parking lots)
 - Water leaks
 - Graffiti

- ❖ When assessing the site; please use the enclosed schedule as a guide. We expect the property to be maintained within these parameters. We have several items which are designated with a site minimum (i.e. no less than 36 visits for High Maintenance Turf) however, if your plan includes additional services, please show this in Attachment I. Likewise, we have several items which are marked with an * to indicate an expectation that on an as needed basis you will perform such task (i.e. BED AREAS shows an * in April to "Fertilize Ground Cover, Trees and Shrubs" but if it is not needed because of healthy growth and good look you may forgo this fertilization until next year. Likewise, under the category PRUNING you may need to prune and hedge every month or as needed). We expect you to be the professional and make the call to keep the site well maintained.

Landscape Maintenance Standards and Specifications

Overview: The Owner believes that using Natural Landscaping techniques to maintain this property will create a landscape that is healthy, resource-efficient, sustainable, and cost-effective to manage. When Natural Landscaping techniques are applied in landscape design, construction, and long-term maintenance, there are many benefits, including easier maintenance, lower costs, and higher property values.

It is the Owner's expectation that the Contractor's proposal will comply with these Natural Landscaping-based standards and specifications. It should be the Contractor's expectation that the Owner will only consider awarding the contract to a Contractor whose bid shows compliance. The Contractor should also expect to be held to these standards throughout the course of the contract.

The following standard outlines the scope of services and responsibilities required of the Contractor, but may not be inclusive to the entire scope of services. The specifications outline the quantity and category of work required.

Other parts of the contract **(not included here)** provide definitions of terms used and other contract requirements such as insurance and licensing standards, code enforcement, hours of work, work authorizations, site locations, etc.

1. GENERAL STANDARDS

1.1. GUARANTEE AND REPLACEMENT

- 1.1.1. Contractor shall replace, at no additional cost to Owner, any turf or plant materials damaged as a result of improper maintenance attention or procedures. Replacement material shall be of the same size and variety as the dead or damaged material. Replace plant material within two weeks of identification of damage. Alternatives to size, variety and scheduling of replacement only by written permission of Owner.
- 1.1.2. Contractor is not responsible for losses, repair or replacement of damaged work or plant material resulting from theft, extreme weather conditions, vandalism, vehicular incidents (other than Contractor's vehicles) or the acts of others over whom they have no reasonable control.
- 1.1.3. Contractor shall inform Owner within 30 days post service of plant losses not covered by warranty and unrelated to the maintenance activities. Provide Owner with the cause of the plant loss, and provide recommendations for replacement along with pricing for replacement.

1.2. CONTRACTOR STAFF TRAINING AND EXPERIENCE

- 1.2.1. Contractor will provide staff able to perform work at the highest standards of horticultural excellence. Key staff shall have current knowledge of best management practices (BMP's) regarding: safety, hazardous materials spill response, plant health, pruning, integrated pest management, pesticide application, and irrigation maintenance. Owner reserves the right to demand the replacement of Contractor's staff who do not meet the owner's standards for safety, professionalism, or horticultural knowledge.
- 1.2.2. All work shall be performed under the direct on-site supervision of a qualified landscape professional with a minimum of five years combined horticultural education and experience. Preference will be given to an individual with at least a two year horticultural degree or Certified Landscape Technician (CLT), combined with two years work experience, or greater.
- 1.2.3. All pesticide applications shall be performed by a Contractor (or sub-contractor) licensed and insured as a Washington State Commercial Applicator. In addition, the staff doing the pesticide application shall be licensed as Commercial Operators. License numbers will be provided to the Owner prior to award of contract.
- 1.2.4. All pruning will be performed by, or under the direct on-site supervision of, staff with documented education and training in proper and naturalistic pruning techniques. Pruning of trees greater than six inches DBH will only be performed by an ISA certified Arborist.

1.3. OWNER/CONTRACTOR COMMUNICATION

- 1.3.2. Provide Owner with an emergency contact list identifying the names, positions held, and phone numbers of key maintenance personnel. Provide direct contact numbers for the landscape maintenance manager and site supervisor.
- 1.3.3. Attend meetings and site inspections of the grounds as requested by Owner.

1.4. MAINTENANCE RECORD KEEPING

- 1.4.1. Contractor shall maintain a computerized log of activities performed, schedules, additional service repairs, and documentation of each application of fertilizer, pesticide (includes herbicides), and/or other chemicals. Provide a written copy 30 days post service.
- 1.4.2. Pesticide application records shall be kept in accordance with RCW 17.21, Section 100. Records shall be kept by the Contractor on all pesticide (includes herbicide) applications for a minimum of seven (7) years. Such records shall be completed in accordance with all applicable laws and regulations and on forms as provided in the Washington Administrative Code, WAC 16-228-190. (<http://agr.wa.gov/pestfert/Pesticides/docs/RecForm4226.pdf>)

The following information shall be recorded at a minimum for each application:

- The location where the pesticide or herbicide was applied.
- The year, month, day, and time the pesticide or herbicide was applied.
- Purpose of application.
- The person or firm who supplied the pesticide or herbicide which was applied.
- Trade name of the pesticide or herbicide which was applied, amount and concentration.

1.4.3. Supply the Owner with written copies of chemical application records annually.

1.5. LANDSCAPE SERVICE SCHEDULING

1.5.1. Establish a schedule and a Gantt (or equal to) chart for regular maintenance activities by area and submit to Owner for review. Contractor to review proposed schedules with Owner at the regularly scheduled meetings and adjust as necessary to avoid conflicts.

2. SCOPE OF WORK

2.1. GENERAL PRACTICE GUIDELINES FOR MATERIALS AND EXECUTION

2.1.1. This document is intended as a benchmark of the Owner's minimum standards for maintenance, repair and improvements. However, the Owner respects the Contractor as a professional and as such, will take under consideration, any and all recommendations made by the Contractor.

2.1.2. Contractor shall furnish all labor, equipment, and materials necessary to complete the maintenance of turf and plantings, as specified herein. It is the intent of the Owner that this site be maintained in a resource-efficient, sustainable, and cost-effective manner.

2.1.3. Maintenance shall consist of fertilization, soil building, pruning, mowing, irrigation, IPM, weed/insect/disease control, litter control and any other procedures consistent with good horticultural practice necessary to ensure normal, vigorous, and healthy growth of turf and landscape plantings.

2.1.4. When performing any work requiring subsurface excavation, Contractor shall take care to avoid damage to existing utilities and vegetation. Contractor shall contact Utility Locate at 1-800-424-5555 or private locate company to identify underground utilities.

2.1.5. All turf shall be mowed with professional quality mulch-mowing equipment. Contractor is encouraged to use non-polluting devices like rakes and brooms when feasible. Owner prefers that blowers and other power equipment are low-decibel, low-fossil fuel consumption, and low-emissions models.

2.1.6. Contractor is encouraged to develop cultural practices which incorporate on-site recycling of organic materials, such as leaves and grass clippings, and the use of recycled materials in its maintenance operations.

3. MATERIALS AND EXECUTION – INTEGRATED PEST MANAGEMENT AND PESTICIDE APPLICATIONS

3.1. INTEGRATED PEST MANAGEMENT (IPM)

3.1.1. Owner strongly encourages environmentally sensitive maintenance practices. The principles of integrated pest management (IPM) shall be employed. The intent is to limit any pesticide (including herbicide) applications through healthy landscape management practices.

3.1.2. IPM is an approach to pest control that utilizes regular monitoring to determine if and when treatments are needed and employs physical, mechanical, cultural, biological, and educational tactics to keep pest numbers low enough to prevent unacceptable damage or annoyance. Additional treatments, such as pesticide applications, are made only when and where monitoring has indicated that the pest will cause unacceptable economic, medical, or aesthetic damage.

Treatments are not made according to a predetermined schedule. Treatments are chosen and timed to be most effective and least-hazardous to non-target organisms and the general environment. (adapted from Bio-Integral Resource Center)

3.1.3. Contractor shall consider pesticide applications only as a last resort and only after other methods of control are proven ineffective. Organic products should be utilized prior to synthetic products.

3.2. PEST MONITORING

3.2.1. Pest monitoring and inspections to include the following:

- Contractor staff shall visually inspect all landscape areas per visit. Pest problems include insect, disease, and weed infestations. The presence of a pest does not necessarily mean there is a problem. Contractor shall keep written records of pests identified and areas where problems may be developing.
- Contractor on-site supervisor shall visually inspect all landscape areas once monthly from April through September with the Owner. Review written monitoring records at this time and update as needed.
- Identify any area where IPM control methods should begin.

3.2.2. Contractor on-site supervisor shall provide the following written pest monitoring reports to Owner.

- Summary of pests identified during pest monitoring inspections, status of infestations, and description of controls implemented (e.g., "applied wood chip mulch", "mechanically pulled weeds", "adjusted irrigation").
- Noxious Weeds identified. See section below for Noxious Weed Control specifications.

3.2.3. Contractor shall provide proposals for renovations, replacements and other changes, along with associated budget recommendations, once annually.

3.3. PESTICIDE APPLICATIONS

3.3.1. Pesticides include all herbicides, insecticides, fungicides, and various other substances used to control pests.

3.3.2. ALL pesticide applications shall be preceded by monitoring and positive pest identification. Submit these findings in writing to Owner prior to any pesticide application.

3.3.3. Under no circumstances will combination products be allowed ("weed and feed", weed control + fertilizer, insect control + fertilizer, etc.).

3.3.4. Under no circumstances will regularly scheduled calendar-based applications of pesticides be allowed without written prior approval of Owner.

3.3.5. Under no circumstances will preventative "blanket" applications of pesticides be allowed without written prior approval of Owner.

3.3.6. If Contractor determines that calendar-based or "blanket" applications may be needed, Contractor shall provide Owner two weeks notice of request. Owner will determine if such applications will be allowed. Contractor shall provide Owner the following information in a request for calendar-based or "blanket" application of any pesticide:

- Identification of pest and reasons control is required.
- Description of the cultural, non-chemical, and/or spot application of pesticides already tried and assessment of success or failure of those remedies.
- Product recommendation and information on health and environmental hazards of that product. City of Seattle and King County Pesticide Tier Tables, and "Grow Smart Grow Safe" may be helpful in locating this information.
 - <http://www.seattle.gov/environment/TierTablesFriendlyFormat.xls>
 - http://www.govlink.org/hazwaste/interagency/ipm/ipm_prod_eval.html#tierinreport
 - <http://www.govlink.org/hazwaste/publications/growSmart2006web.pdf>
- Owner will determine if calendar-based or "blanket" application will be allowed and if so may request that Contractor use alternate product, based on health and environmental information.

3.3.7. All pesticides must be EPA approved and applied by a licensed Washington State Pesticide Applicator or Operator per the label directions. All applications must be posted as per WSDA regulations for 24 hours after application. All chemicals used must have a SDS filed with Owner. Pesticide application records shall be kept in accordance with RCW 17.21, Section 100 and copies provided to owner annually.

3.3.8. Contractor is responsible to verify that pesticides are appropriate for use with the respective plant materials and surrounding areas. Contractor is responsible for any damages incurred as a result of applications and shall repair or replace any such damage at no cost to Owner.

3.4. NOXIOUS WEED CONTROL

3.4.1. Noxious Weed Control is mandated by the state weed control law, Chapter 17.10 RCW. Assistance and weed lists (Class A, B, C, Non-designate, and Weeds of concern) are available from the King County Noxious Weed Control Program at <http://dnr.metrokc.gov/wlr/lands/weeds/>, or 206-296-0290.

3.4.2. Contractor shall begin control of any King County Class A, B, or C Weeds upon identification. Control will follow non-chemical IPM control techniques outlined in King County's Best Management Practices, Alerts, and other documents posted on the Noxious Weed website. Pesticide applications can only be considered as a last resort when non-chemical methods have proved ineffective. Follow the specifications listed in section 3.3 Pesticide Applications, above.

3.4.3. Non-designate and Weeds of concern shall be controlled with ongoing IPM and healthy landscape management techniques.

4. MATERIALS AND EXECUTION – TURF MAINTENANCE

4.1. TURF MOWING

4.1.1. All turf will be mowed with professional quality mulching mower equipment. Pricing assumes that bagging and removing clippings will be required only when excessive leaf debris is present, turf is too long to mulch, or when moisture conditions are too high to allow effective mulching without substantial clumping of turf debris.

4.1.2. Prior to each mowing remove all litter and debris from lawn areas.

4.1.3. Formal turf areas shall be mowed per a schedule for each site. Turf will be mowed and maintained at a height of 1-1/2 to 2-1/2 inches. Coordinate mowing schedules with Owner. Alternate mowing direction where feasible every mowing. Maintain a uniform lawn height free from scalping.

4.1.4. Mulch mow whenever possible. Clumps of grass should not remain after mowing. Mow over dense clippings if possible or use a blower to dissipate clippings.

4.1.5. The Owner and Contractor will evaluate and determine if there are any areas of turf that should not be mulch mowed.

4.1.6. Clippings will be kept out of all mulched beds and tree rings. Mowing pans are not to cross over mulched beds and tree rings.

4.1.7. Clippings will be swept or blown from any hardscapes onto lawn areas after each mowing. No clippings are to be blown into mulch areas. Sweeping is encouraged when feasible.

4.1.8. Owner and Contractor will evaluate and determine any areas that require bagging and removal of clippings on a regular year-around basis.

4.1.9. Contractor is responsible for any damages incurred as a result of mower damage to trees, shrubs, and property, and must repair or replace any such damage at no cost to Owner. Properly maintained tree wells are encouraged to minimize such damage.

4.2. TYPICAL TURF MOWING SCHEDULE

January	One mowing
February	One mowing
March	Two mowings
April	Weekly mowings
May	Weekly mowings
June	Weekly mowings
July	Weekly mowings
August	Weekly mowings
September	Weekly mowings
October	Three mowings
November	Two mowings
December	One mowing

NOTE: Base Contract price includes 36 mowings per the mowing schedule. Schedule of 36 mowings may be altered per Owner request or as required by climatic on-site conditions.

4.2.1. Contractor will submit mowing schedule annually.

4.3. TURF EDGING AND TRIMMING

4.3.1. Mechanically trim all landscape turf edges every other mowing. Edges include all formal lawn perimeters and tree wells in lawn areas. Twice annually redefine all formal lawn edges with a mechanical blade-type edger or hand spade. Clean debris from hardscapes and non-turf landscape areas, remove larger debris.

4.3.2. Trim all formal lawn areas that can not be reached by a mower every other mowing. Areas to be trimmed include any lawn adjacent to poles, signs, bollards, trees, walls and all other obstacles. Perform trimming to the same height as mowing. Clean debris from hardscapes and non-turf landscape areas, remove larger debris.

4.3.3. Contractor is responsible for any damages incurred as a result of trimmer and edger damage to trees, shrubs, and property, and must repair or replace any such damage at no cost to Owner. Properly maintained tree wells are encouraged to minimize such damage.

4.4. TURF FERTILIZATION

4.4.1. Beginning the first year of the contract, Contractor shall provide soils tests performed by an authorized laboratory at least once every three years to determine fertility and pH requirements of turf areas. Submit soil test analysis and recommendations to Owner.

4.4.2. Fertilize landscape turf areas with a well-balanced, slow release fertilizer as required to provide vigorous deep rooting and a healthy green appearance year-round. Determine fertilizer application rates and materials from soil test results. Generally, turf fertilizer should not exceed a 3-1-2 nutrient (N-P-K) ratio.

4.4.3. Annually submit a fertilizer schedule, listing proposed materials, application rates and application times with your Proposal and immediately prior to performing the work. Contractor shall provide pricing for use of slow-release chemically based or "bridge" fertilizer AND natural-organic fertilizer. Owner may choose a schedule that includes either one or both types of fertilizer.

4.4.4. Approved fertilizer schedule must include three to five applications per year (or less if supported by soil test results), no more than one pound of nitrogen per thousand square feet per application, and no more than four pounds of nitrogen per thousand square feet applied annually. Nitrogen applications in excess of four pounds per thousand annually are allowed only if supported by soil test results.

4.5. TURF LIME APPLICATION

4.5.1. Apply agricultural grade pellet form lime at a rate of up to 40 lbs/1000 sq. ft. in turf areas only as recommended by soil test results, and no more than once annually in the spring. Do not apply lime and fertilizer at the same time. Lime should go on first: wait at least 30 days after applying lime before fertilizing.

4.6. TURF WEED, PEST AND DISEASE CONTROL

4.6.1. Control of weeds: Use cultural methods (mulch mow, fertilize, aerate, irrigate) to minimize weed cover on all turf. Owner shall identify turf areas considered high-quality, all other areas shall be treated as standard-quality turf. If weed cover increases to over 20% of turf on high-quality area or up to 40% on standard-quality areas, then spot applications of contact herbicide may be considered during the growing season to control broadleaf weeds. A maximum of two spot applications annually for all turf areas are allowed and included in the work per site. Use health and environmental hazard information to choose most effective and least hazardous product. Single active ingredient products are preferred if they are available and meet other criteria for safety and effectiveness. "Weed and Feed" products are not allowed.

4.6.2. Control of insects: Monitor all turf areas for infestation of crane fly and other harmful insects. Use cultural and mechanical means for control, including fertilizing to outgrow damage, and aerating in spring to reduce larvae population. Pesticide application for crane fly control will only be allowed if documented monitoring shows more than 25 crane fly larvae per square foot. Apply pesticides only to specific areas where insect infestations have been identified by the Contractor and pose significant risks to the health and appearance of turf. Use health and environmental hazard information to choose most effective and least hazardous product.

4.6.3. Control of moss: Monitor for moss at levels that diminish turf quality. If found, apply moss control product containing no more than 10% iron or a fatty-acid soap active ingredient on affected turf areas up to once annually, only if needed. Avoid contact with hardscape surfaces and immediately clean any staining. Combination moss control + fertilizer products are not allowed.

4.6.4. Control of diseases: Monitor for Red Thread and other fungal diseases. No fungicide treatments for Red Thread are allowed. Treat the cause, nitrogen deficiency, with nitrogen fertilizer instead. If other diseases are determined to be causing significant risks to the health and appearance of the turf after cultural improvements are tried, then use health and environmental hazard information to choose most effective and least hazardous product.

4.7. TURF AERATION AND OVERSEEDING

4.7.1. Aerate 30% of the square footage of turf areas once annually in the spring. Rotate applications to achieve 100% coverage of all turf areas at least every 5 years. Adjust areas to be aerated based on need (some areas may be aerated every year and others only as required to meet the 5 year minimum rotation). Aerate with a vertically operating core aerator utilizing shaft mounted 1/2" hollow tines. Cores shall be made 4" on center to a 3" depth.

4.7.2. Overseed immediately after aeration with a quality Northwest seed blend adapted to the site. Use at recommended overseeding rate.

4.7.3. Drag turf areas to break up plugs and mix with the seeds.

4.8. TURF THATCHING

- 4.8.1. Mechanical thatch removal is not part of this contract and is considered an additional service. Monitor for thatch once annually in the fall. If 30% or more of the turf has thatch build up of over one inch, Owner may approve thatching of that area. If approved, mechanically remove thatch from approved areas in the fall. Rake or vacuum to remove debris. If mulch mowing will break down debris enough to allow it to stay on the turf area as organic matter, that is allowed.

5. MATERIALS AND EXECUTION – TREES, SHRUBS, VINES, GROUND COVER MAINTENANCE

5.1. TREES, SHRUBS, VINES AND GROUND COVER FERTILIZATION

- 5.1.1. Fertilize plant materials as indicated below.
- 5.1.2. Trees, shrubs, including rhododendrons, vines and ground covers: Fertilize in March or April with slow-release, "bridge" or natural-organic fertilizer. Use 1-2-2 nutrient ratio (N-P-K), or similar, per manufacturer's recommended rates (not to exceed 5-10-10).
- 5.1.3. Perennials: Fertilize in March and again in June with same fertilizer used above per manufacturer's recommended rates.
- 5.1.4. Ornamental grasses: Fertilize in October with turf fertilizer approved in turf section above. Fertilize per manufacturer's recommended rates.

5.2. TREES, SHRUBS, VINES AND GROUND COVER WEED, PEST AND DISEASE CONTROL

- 5.2.1. Control of Weeds: Use cultural methods (mulch, proper pruning, proper irrigation) to encourage plant health and growth and discourage weeds. Keep planter beds and tree wells free of weeds and debris on a rotational basis, weekly throughout the year by hand pulling or other mechanical means. Entire site shall be weeded by hand or mechanical weeding methods that remove the roots at least once monthly. Ground covers are to be trimmed so they meet but do not grow over walkways or outside any of the planters.
- Use of contact herbicides may be considered during the growing season to control noxious and other difficult to control perennial weeds. A maximum of two applications annually are allowed and included in the work per site. Use health and environmental hazard information to choose most effective and least hazardous product. Use single active ingredient products only, no tank mixes are allowed.
 - Use of pre-emergent herbicides is not permitted without prior written approval of Owner on an incident by incident basis. Pre-emergent herbicides may only be used on sites with at least two years of plant establishment. Areas considered for pre-emergent use are limited to tree wells and mulch-only beds without ground cover. Standard maintenance practices called for in this contract must be documented in areas where pre-emergent use is being considered before approval for use will be given (hand weeding, edgings, mulch application, proper pruning) Pre-emergent herbicides are not allowed in planted shrub beds or graveled pedestrian walkways.
- 5.2.2. Control of Insects and Diseases: Apply insecticide or fungicide to trees, shrubs and ground covers only when significant plant damage would result from not addressing the infestation. Calendar-based spraying is not allowed. Base pesticide application decisions on monitoring for damage, specific pest identification, and proper timing. Control of major disease and insect infestations for trees, shrubs and ground covers is not a part of the contract work and is considered an Additional Service. Regularly monitor all plant material and immediately notify Owner of any need for such control. Contractor is responsible for any damage to plant material incurred as a result of failure to immediately notify Owner of correctable disease and/or insect problems, and Contractor must replace any such damaged plant material at no additional cost to Owner.

5.3. PRUNING TREES, SHRUBS, VINES AND GROUNDCOVER

- 5.3.1. All pruning will be performed by, or under the direct supervisions of, staff with documented education and training in proper selective pruning practices. College level pruning courses, WSU industry training programs, and Plant Amnesty Master Pruner qualification are examples of such training.
- 5.3.2. Selective pruning is the preferred method for all trees and shrubs, and sheering should only be used when selective pruning is not feasible and for certain formal hedges identified by Owner. Prune to enhance the natural growth and shape of plant materials and intended function of the planting, and to avoid the growth of watersprouts. Plantings are designed to grow together and to the edges of the beds to minimize weed infestation and maximize water conservation.. Prune back branches as needed when interfering with walks, buildings, signage, fire control utilities, site lighting, security/safety visibility, site lighting, and vehicular circulation. Prune dead and broken branches quarterly and more frequently as required.
- 5.3.3. Where trees and shrubs have been improperly sheered, use selective pruning methods to enhance natural growth and shape. Plant life is expected to grow together so as to provide a healthy coverage of the planting beds.
- 5.3.4. Street trees shall be pruned to maintain adherence to City or County sight distance requirements, to maintain visibility of street name signs, protect trees from vehicle damage, and maintain pedestrian safety.
- 5.3.5. Prune all plantings on a rotational basis appropriate to site, need, season and plant species. Discuss significant pruning work with Owner prior to work beginning.
- 5.3.6. Prune back all shrubs and groundcover from the building envelop to a minimum of 12 inches. Prune trees to a minimum of 3 feet from the building envelop or the distance of the trunk to the building envelop, whichever is smaller.
- 5.3.7. Prune and clean just outside the branch collar in accordance with accepted horticultural practices. Pruning must only be performed by trained personnel. Replace plant materials that are disfigured or damaged due to improper pruning at no additional cost to Owner.
- 5.3.8. Periodically inspect and adjust tree staking and guying to prevent damage to the cambium layer. Remove guys and stakes as soon as trees are established and self-supporting (generally two years or less).
- 5.3.9. Prune trees as required and appropriate in compliance with ANSI A300 (Part 1), "Tree, Shrub, and Other Woody Plant Maintenance—Standard Practices (Pruning)."
- 5.3.10. The Additional Services of an ISA-certified arborist are required for pruning on any trees larger than six inches DBH (diameter at breast height as measured at four and one-half feet about the existing grade at the base of the tree) and any branches larger than four inches in diameter. This is considered an additional service.
- 5.3.11. Prune only as needed to maintain form and clearance, and to remove dead or broken branches. Shrubs that have been improperly pruned or sheered should be fixed through proper selective pruning practices.
- 5.3.12. Trees or shrubs damaged by incorrect pruning practices shall be repaired or replaced at the Contractor's expense.

6. MATERIALS AND EXECUTION - GENERAL AREA MAINTENANCE

6.1. LEAF AND BRANCH REMOVAL

- 6.1.1. Per visit keep walks, patios, planting beds, roadway gutters, driveways, roadways, parking lots, and lawn areas free of leaves and branches.
- 6.1.2. Leaves shall be mulch mowed when possible. If leaves don't mulch mow, then remove from site. When possible leaves can be left around shrubs, and then mulch must be placed on top of the leaves.

6.1.3. In autumn leaf removal can occur at each visit to prevent smothering of turf and groundcovers and excessive clumping when mulch mowing. Owner's preference is that whenever safety and plant health are not compromised, leaves should remain on-site and incorporated under mulch around plantings. Remove leaves from sites only as needed to maintain a neat appearance and the health of the planting.

6.1.4. Excessive branch and debris cleanup from storm damage is not included in the contract work and is considered an additional service at Owner's request.

6.2. LANDSCAPE DEBRIS REMOVAL

6.2.1. Remove biodegradable landscape debris (turf clippings -limited to only those times when mulch mowing is not possible, leaves, branches, annuals, dead plant material, etc.) to yard refuse recycling facility. Acceptable sites include topsoil producing facilities and/or other facilities, which utilize yard waste for landscape purposes. No biodegradable material should be disposed of as garbage, except noxious weed debris.

6.2.2. Remove and properly dispose of moss from hardscapes (stairs, walkways, roads, etc.).

6.3. LANDSCAPE TRASH REMOVAL

6.3.1. Remove all trash from landscaping beds, turf areas and parking lot to an approved trash container onsite per visit. For large amounts of trash, or if there is no approved trash container onsite, Contractor shall haul it away for appropriate disposal.

6.4. MULCH REPLACEMENT

6.4.1. Once annually Contractor shall replenish mulch to maintain a depth of no less than two inches (2") in all planting areas. All tree wells to be re-mulched annually. Established beds where plant foliage or groundcover completely covers the soil surface require no additional mulch. Keep mulch at least two to three inches (2 – 3") away from the crown of plants and trees.

6.4.2. Mulch shall be medium or fine Hog Fuel wood chips, clean arborists wood chips, shredded leaves, coffee hulls, compost, etc.

6.4.3. "Red" bark mulch or dust shall not be used.

6.5. OTHER AREA MAINTENANCE

6.5.1. *Removal of moss from hardscapes on an as needed basis. Treat moss with least toxic methods during most effective time of year.*

6.5.2. *(Areas such as water features, annual planting beds, rockeries, rough turf areas, native areas, trails, bioswales, and detention ponds require specialized language and inclusion in the contract specifications on an as needed basis.)*

7. MATERIALS AND EXECUTION - IRRIGATION

7.1. Irrigation systems are to be not included in this scope.
