Welcome and Introductions

Tracie went over the RAC reminders.

Seola Gardens

We are applying to HUD to change the ownership and remove the public housing covenant

- Beth is in the process of turning in the application and the last part is taking in questions from residents.

- Hoping to submit the application in the next 2-3 weeks.

We have finished up Seola Gardens project (10 years).

- We just sold the last home now and we are ready to release the last ½ acre parcel

Beth opened it up to questions. She provided her contact information

Questions/Comments/Suggestions

- Will there be any changes to the facility or programming?
 - No changes.
- What about liability with the changes?
 - We will have the same lease in place.

KCHA Temporary Relocation Policy

Judi Jones went over the temporary relocation policy.

- It provides information such as how much notice we give residents.
- It lists what type of benefits are available to residents when a relocation is needed.
- This gives staff a guideline for providing temporary relocation.

We try to develop a relocation plan that works for that development/project and the residents.

If there are any questions after this meeting, please email Judi Jones at judij@kcha.org.

EPC Elevator Project

Please spread the word to other residents to request a reasonable accommodation if they will need assistance during the elevator project. We have a service where we can provide help with groceries or walking the pets, etc.

Update on New Lease & Charge Policies

New Lease Policy

Bill provided updates on the new lease policy.

- We have the final draft version of the new policy.
- There will be an advocacy group meeting where we will explain changes to the policy and we want to get their feedback. The meeting will be held at our office on April 11.
- All residents will get mailed a packet and can make comments during the public comment period.
- We hope to get final board of commissioner's approval in June.
- Once it is approved, it will go into effect immediately.

New Maintenance Charge Policy

Bill passed out a maintenance charge chart – under current policy (left) and new policy (right)

Current policy we charge on the labor.

- We are charged a mechanic rate if a mechanic does the work.

New policy charges on the position that would usually do the work.

- We are charged the rate of who should be doing the work, even if a mechanic does the work. We are not charged the mechanic rate.

We are taking the pro-rate out that would calculate the years left on a carpet and will only charge for the section that needs to be replaced.

Questions/Comments/Suggestions

- *Will we be charged for something like taking gaskets off?*
 - *You will not be charged for something that is wear and tear. If you moved out and there was damage, there would be a charge for that.*
- *How and when will the new lease be applied to residents?*
 - *We may just have people sign the new lease when their lease expires.*

- *How do I know when my lease will expire?*
 - *That information will be on your recertification or update paperwork.*
- *Has anything changed in the policy about smoking marijuana indoors/outdoors?*
 - *Smoking is addressed in the lease. If they are smoking within 25 feet of a window or building, let your property manager know. If it is outside of 25 feet, you can call the local law enforcement.*

Section 8 Updates

If anyone is concerned about the government shutdown, please take a look at our website. We post updates there regularly. KCHA employees were never concerned about being laid off or operations halting. Next years budget is well secured.

RAC Survey Questions

Please feel free to send additional suggestions/comments to Tracie before the end of the month with either your name or you can list yourself as anonymous. Her email address is tracief@kcha.org.
